

PARTICIPANT INFORMATION FORM

Pilot testing of an adapted observational parent-child interaction measure for the ASTAR feasibility trial

Participant Identification Number:

Hello! Our names are Melanie and Tom

We are doing some research.

Research is when we ask people to do things to find things out.

We are asking you if you would like to help us.

We want to tell you about the study.

You can choose to do it or not.

Somebody will read this letter with you.

You can talk to your parent or carer about it.

Our research

We want to see how parents and children play together.

Why do we want you to take part?

We want to look at how lots of different children play with their parents.

That's why we would like to see you.

What will happen if you take part?

We will meet with you and your parent or carer.

You can ask us any questions.

You will be asked to play some games and do some tasks with your Mum, Dad or carer.

We will video you.

It will take about 45 minutes.

Who are the researchers?

You will meet with Melanie and Tom.

They will tell you about the research and make sure you're happy to do it.

Do you have to take part?

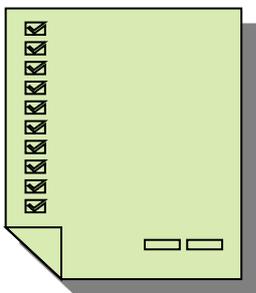

You can say Yes.

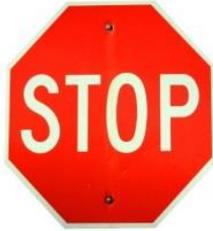

You can say No.

What happens next if I do want to take part?

If you say YES you will sign a form.

You can STOP whenever you want.

We will keep the video of you safe.

We won't show the video to anyone else.

But we will need to tell someone if you tell us that you or another person might get hurt.

Thank you for looking at this.

This research project has been reviewed by people who are there to make sure you are treated well.
